PROFILE

Web Developer with 1.3 years of experience building dynamic, and user-friendly websites. Delivered 25+ projects, including informative websites and gained hands-on experience supporting an eCommerce store. Proficient in creating custom WordPress themes, and working with ACF, CPT UI, and essential plugins. Strong ability to follow requirements, incorporate feedback, and deliver clean, optimized solutions. Recognized for reliability, consistency, and attention to detail. [View my portfolio.](#)

WORK EXPERIENCE

Falk Technology Pvt. Ltd. – Kolkata, India

NOV. 2024– FEB. 2026

Junior Web Developer

- Developed 25+ dynamic multi-page and single-page informative websites.
- Supported the development of a WooCommerce-based eCommerce website, handling product setup and configuration tasks.
- Built custom templates using Twenty Twenty-One and made custom themes.
- Created custom post types and custom fields using ACF + CPT UI to make websites dynamic and easy for clients to update.
- Integrated and customized plugins like Contact Form 7, CF7 DB, redirection, SMTP emailing and many more.
- Fixed bugs and followed senior developer instructions closely.
- Managed website backups, plugin updates and site maintenance.

Project Highlights

WordPress & WooCommerce Development (25+ Projects):

Built dynamic corporate websites and eCommerce solutions, including custom templates, dynamic sections, contact systems, SEO-optimized pages, product setup, product listing, search configuration, and basic eCommerce functionality.

Custom Theme Projects:

Converted static HTML to WordPress theme with header, footer, loops, custom templates.

Personal Development Projects:

Built custom WordPress plugins using admin menus, hooks, and frontend structure; created landing pages (single/multi pages) using Elementor; developed PHP + MySQL CRUD applications; customized WooCommerce templates.
